**S. 858
Intelligence Authorization Act for Fiscal Year 1998**

As cleared by the Congress on November 7, 1997

S. 858 would authorize appropriations for fiscal year 1998 for intelligence activities of the United States government, the Community Management Account, and the Central Intelligence Agency Retirement and Disability System.

The Congressional Budget Office (CBO) was unable to obtain the necessary information to estimate the costs for the entire bill because parts are classified at a level above clearances held by CBO employees. Thus, CBO cannot determine whether those parts of the bill would affect direct spending or receipts. However, the unclassified portion of S. 858 would not affect direct spending or receipts.

The estimate was prepared by Dawn Sauter. This estimate was approved by Paul N. Van de Water, Assistant Director for Budget Analysis.
